OVER 40 YEARS OF EXPERIENCE

We are members of:

European
Sealing
Association e.V.

Our management system complies with:

Polish manufacturer of mechanical seals

ANGA Uszczelnienia Mechaniczne Spółka z o.o. is a Polish private manufacturing company, established in 1981. The headquarters of our company is located in the Silesian province, in Kozy near Bielsko-Biała.

ANGA specializes in the manufacture of face mechanical seals used in various machines with a rotating shaft, e.g., impeller pumps, mixers, reactors, compressors and fans.

Some facts and figures, that we are proud to share

To provide our customers with the highest product quality and state-of-the-art engineering solutions, **ANGA has implemented the certified management system including quality (ISO 9001), environment (ISO 14001) and health & safety (ISO 45001).** ANGA applies modern methods of production management. Extensive research and development facilities include an accredited testing laboratory (metrological), seals tests stands and 3D/CAD/CAM design department.

OUR FLAGSHIP PRODUCT - GAS SEALS

Gas lubricated seals are environmentally-friendly, contactless seals, used in all industries, especially in toxic, carcinogenic and explosive processes hazardous to the environment and human health.
